

DWA_03.4 Knowledge Check_DWA3.1

1. Please show how you applied a Markdown File to a piece of your code.

All my GitHub repositories holding code have a Readme.md file which is a markdown file that explains how the code works and how to use it. Below is one example:

2. Please show how you applied JSDoc Comments to a piece of your code.

In my capstone project for IWA I applied JSDoc comments to code to explain the different components of it.

```
/**
 * The createPreview() function takes a book preview object and returns
 * a button element containing the book preview information in HTML form
 */
✓ function createPreview(preview) {
    const { author: authorId, id, image, title } = preview
```

3. Please show how you applied the `@ts-check` annotation to a piece of your code.

I have not used the `@ts-check` annotation yet.

4. As a BONUS, please show how you applied any other concept covered in the 'Documentation' module.
